

Energy Efficient ENTERPRISES

MACED's Energy Efficient Enterprises project seeks to:

- Improve energy efficiency in small and midsize enterprises to keep utility costs low and to reduce pollution emissions.
- Provide high quality energy assessments to enterprises that result in actionable recommendations.
- Assist with choosing vendors and types of equipment for upgrades and installations.
- Offer flexible loans to finance energy efficient projects while maintaining a positive cash flow from energy savings.

To address how your company or nonprofit can become more energy efficient by working with MACED, contact Energy Specialist Josh Bills at 859-986-2373 or jbills@maced.org.

If your company is ready to implement energy efficiency improvements and is need of financing for those upgrades, contact Business Development Associate Danny Isaacs at 859-986-2373 or disaacs@maced.org.
